SCRIM CRISTAL 740 | 2202 5342

Light permeable grid fabric for breathable stable curtains.
Flexible, durable mesh with a refined semi matt lacquer.

scrim cristal 740 is flexible, allows light to pass through, and has a clean appearance, making it ideal for stable curtains and agricultural ventilation systems. Its transparent, fully coated mesh structure allows controlled daylight to enter while maintaining airflow. The semi matt lacquer coating on both sides gives the fabric a neat, low-glare appearance that remains stable during daily outdoor use.

With around 35% light scrim cristal 740 strikes an efficient balance between visibility, ventilation, and reliable handling, making it ideal for modern, breathable stable environments.

German Engineered

Status: 10.08.2026

Balanced Surface Protection

dual side semi matt lacquer for balanced surface protection, reduced glare and a refined appearance

Exceptional Width

320 cm for applicaitons requiring large, seamless coverage

Improving Ambient Brightness

allows about 35% daylight to pass through the white material, supporting natural light entry

Weather Resistance

state-of-the-art UV stabilizers ensures a reliable weather resistance
