

HEAVY DUTY 2150 LQ | H3529-9424-V0

Mineral oil resistant material built for long service life. High UV stability for demanding bulk material and crane weight applications.

heavy duty 2150-LQ is designed for applications involving mechanical stress and weather exposure. Its formulation withstands abrasive environments and high loads without losing dimensional stability. Its UV-resistant formula ensures long-term outdoor performance, and the LQ finish provides a clean, durable surface.

Whether used for storing bulk materials or crane-weight, this material provides reliable strength and long service intervals in heavy-duty environments.

**German
Engineered**

Exceptional Strength

ensure maximum safety under demanding loads

Durable Seam Connections

excellent weldability across all common welding methods ensures secure and durable seam connections

Oil Resistant PVC

oil-resistant PVC coating ensures maximum safety and long-lasting performance in demanding environments

Outstanding UV Resistance

ensures long service life even under prolonged outdoor exposure

Protective Easy-Clean Coating

surface coating reduces dirt adhesion, ensuring easier cleaning and longer-lasting material appearance

Other colors on request
