# MESH MATT | H5024-0297

**Open Structure. Made to be seen.**

mesh matt is designed for outdoor advertising on façades and fence banners, where visual lightness is essential. With widths of up to 500 cm | 197 inch, it enables seamless large-format applications that integrate naturally into open architectural environments. At a lightweight 340 g/m² | 10 oz/yd², the mesh combines easy handling with reliable outdoor suitability. An open area of 15% and an air permeability of 1,400 l/m³/s ensure excellent airflow on façades and fences – ideal for exposed locations and large surfaces. Developed as an economy-focused variant, the material follows a reduced design approach, prioritizing material efficiency and functionality. The printable surface delivers clear, daylight-visible graphics, maintaining strong visual impact without blocking light or views. With a storage stability of up to 6 months under moderate climate conditions, the material supports flexible planning and uncomplicated logistics.

**Made in Germany**
