BACKLIT B1/M2 | H6006-0301

Designed to Shine. Built to Last.

The 500 g/m² | 15 oz/yd² backlit material is the ideal solution for illuminated large-format outdoor advertising applications. Developed for intermediate and long-term campaigns, it combines excellent print performance with uniform light diffusion, creating brilliant and vibrant graphics that stand out day and night and ensure optimal illumination and color reproduction. Production widths of up to 500 cm | 197 inch enable seamless large-format installations. The banner offers a storage stability of up to six months under temperate climate conditions and meets national flame-retardancy standards, making it a reliable and safe choice for a wide range of advertising environments.
Typical applications include illuminated billboards, LED lightboxes, retail and shopping mall displays, airport and transit advertising, and many more.
