MESH MATT B1 | H6071-0295

Certified Safety for Open-Air Visibility.

When advertising moves into open structures, materials must deliver visual impact while meeting strict safety requirements. mesh matt B1 is developed for outdoor façade applications and fence banners, combining structural openness with certified performance. With widths of up to 500 cm | 197 inch, it enables seamless large-format installations that integrate smoothly into architectural and urban environments. At a lightweight 340 g/m² | 10 oz/yd², the mesh is easy to handle while remaining suitable for exposed outdoor locations. An open area of 15% and an air permeability of 1,400 l/m³/s makes the material optimals for large-format banners on façades and fencing systems. The material is tested and certified for flame retardancy according to international standards, making it suitable for use in regulated public and commercial spaces. With a storage stability of up to 6 months under moderate climate conditions, the material supports flexible project planning and efficient logistics.
