DOUBLEFACE PLUS B1 | H7490-5126-R

Two Perfect Sides. One Premium Solution

With a printing width of up to 505 cm | 198.8 inch, a weight of 440 g/m² | 13 oz/yd², and 12 months of storage stability in temperate climate zones, doubleface plus B1 is a premium PVC-free textile developed for sophisticated indoor blockout applications. The material features two identically printable sides, providing maximum flexibility for double-sided graphics and suspended displays. Being flame-retardant and opaque, it delivers a curl-free dimensional stability, and excellent print quality on both sides.

doubleface plus B1 is the ideal choice for hanging banners, wall-mounted graphics, trade fair and exhibition construction, POS displays, and other high-end textile applications where visibility from every angle matters.

The technical data are approximate values based on average values determined. For manufacturing reasons, deviations of up to -5% are possible. These technical specifications respond to the current state of knowledge and are intended to provide information about our products without legal obligation. These data apply to new goods. Suggested applications do not release the buyer from the obligation to check whether the material is suitable for the intended use. The statements contained in this document apply to business customers in the B2B sector

PCF values shown on front have been calculated in accordance with the requirements and principles of the Greenhouse Gas (GHG) Protocol and apply to the “cradle-to-gate” and “cradle-to-grave” system boundaries.

“plus” = stands for added value – featuring defined material innovations such as GRS-certified recycled yarns or alternative technologies. Each product lists its specific features for full transparency.
