

SLURRY BAG 1400 | 5206 5342

**Heavy grade PVC in KIWA certified quality.
Calendered for maximum sealing efficiency and long service life.**

slurry bag 1400 is manufactured to KIWA-certified quality standards and is designed for slurry storage systems with higher mechanical requirements. Its calendered PVC construction enhances leak-tightness and improves stability in large containment setups. Low material elongation maintains predictable tank geometry, and the lacquer finish increases durability and UV resistance.

It is a suitable choice for operators who need a stronger material with controlled performance over long use cycles.

KIWA-certified Quality

KIWA-certified material quality ensures safe and reliable storage performance

Premium PVC Safety

high-quality PVC formulation combined with calendering technology ensures maximum leakage safety through superior barrier integrity

Reliable PVC Formula

provides strong resistance to environmental influences, ensuring durable and long-lasting performance

Specialized Surface Lacquer

improves weldability and ensures long service life through durable, reliable seam performance
