

SERVICE WATER 970 CL | 5501 5340

**Calendered PVC for flexible, leak tight water storage liners.
Reliable containment for tank sizes up to around 100 m².**

service water 970 CL is a lightweight yet secure solution for storing service water in systems up to 100 m². Its calendered PVC surface enhances sealing properties and reduces material stretching to help maintain tank geometry over time.

Due to its stable processing behavior and strong environmental resistance, this material is ideal for flexible containment systems that require dependability in daily operation.

Advanced Calendering Technology

ensures excellent barrier integrity for high leakage safety

Lightweight for Flexibility

with only 970 g/m², this optimized lightweight variant is ideal for small containers, offering high flexibility and easy handling

Reliable PVC Formula

provides strong resistance to environmental influences, ensuring durable and long-lasting performance

Strong Adhesion & Stability

high coating adhesion combined with excellent hydrolysis resistance ensures durable, long-lasting performance
