

SERVICE WATER 1100 CL | 5504 5340

Calendered PVC for maximum leak tightness.

High dimensional stability for long lasting service water tanks.

service water 1100 CL is ideal for service water storage applications that require dimensional stability. Its calendered coating ensures a tight, consistent seal, and the proven PVC formula can withstand environmental exposure. The material retains its shape under load and facilitates clean, reliable welding.

It is a solid solution for fixed or mobile water storage applications where dependable mechanical stability is essential.

Status: 03.2026

Advanced Calendering Technology

ensures excellent barrier integrity for high leakage safety

Lightweight for Flexibility

a low weight of 1100 g/m² provides maximum flexibility for easy handling and versatile use

Reliable PVC Formula

provides strong resistance to environmental influences, ensuring durable and long-lasting performance

Strong Adhesion & Stability

high coating adhesion combined with excellent hydrolysis resistance ensures durable, long-lasting performance
