BOAT 1050 | 7318 5340

Heavy duty PVC for long lasting inflatable boat performance.
High abrasion resistance for reliable use in harsh marine conditions.

boat 1050 is designed for inflatable boats that are used intensely on open water. Its robust PVC construction provides excellent abrasion resistance, reliable airtightness, and stable performance under mechanical load. Whether used for rafting, fishing, in rental fleets, or for light rescue applications, the material can withstand repeated folding, beaching, and constant exposure to saltwater.

boat 1050 is easy to weld and process, giving fabricators a solid, durable base for boats that need to perform safely and reliably in everyday marine environments.

German Engineered

Better Grip

enhanced surface grip and premium matt appearance

Reliable Strength

enhanced stability through optimized material thickness of 0,85 mm

Robust Marine Durability

low abrasion and resistant to saltwater

Weldability

excellent weldability and less smoke during welding with HF/Hot Air

PROVEN valmex® QUALITY

Status: 03.2026
