

BOAT 1400 LQ | 7321 5342

**Maximum mechanical strength for high impact boat zones.
Robust textured surface for enhanced durability.**

boat 1400 LQ is designed for the most exposed areas of inflatable boats, where the hull sections are subject to repeated impacts and heavy abrasion. Its textured, matte, embossed surface provides added robustness and improved grip when handling the boat. The thick PVC layer ensures lasting airtightness and structural stability, even under extreme mechanical pressure.

It is a top choice for racing boats, professional rescue craft, and any other inflatable where durability defines safety.

**German
Engineered**

Status: 03.2026

Better Grip

enhanced surface grip and premium matt appearance

Reliable Strength

Enhanced stability through optimized material thickness of 1,15 mm

Weather Resistance

state-of-the-art UV stabilizers ensures a reliable weather resistance

Robust Marine Durability

low abrasion and resistant to saltwater

Protective Lacquering

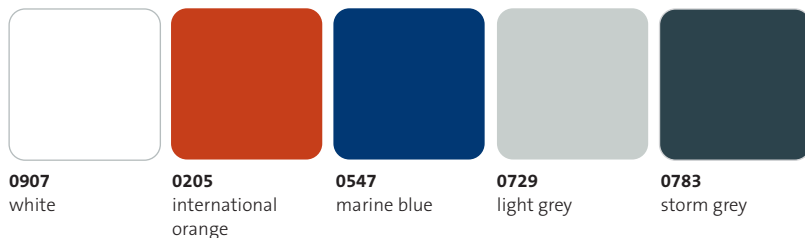

durable, airtight PVC with protective lacquering for clean surfaces and smoother fabric handling during fabrication

Weldability

excellent weldability and less smoke during welding with HF/Hot Air

Other colors on request. Print colors may differ from the original depending on the paper and printing process.
