

FLEXITANK 1300 ALCRYN | 7608 5340

Alcryn coating for broad media compatibility.
Strong, flexible surface for demanding storage tasks.

flexitank 1300 Alcryn uses a specialized Alcryn coating that supports the storage of various liquid media. This material offers a balance of flexibility and robust surface stability, providing a reliable barrier in containment environments. Its consistent performance under daily loads makes it ideal for installations that must tolerate various substances without compromising safety.

It is a versatile, durable solution for facilities handling mixed media.

Advanced Calendering Technology

ensures excellent barrier integrity for high leakage safety

Increased Stability

material weight of 1300 g/m² provides increased stability and enhanced safety in demanding applications

Outstanding Resistance

Alcryn coating provides outstanding resistance to a wide range of media, ensuring reliable and durable performance

Other colors on request
