BOAT 850 | H2562

Reinforced PVC strength for demanding water use.
Reliable airtightness with increased mechanical stability.

boat 850 is a strong, medium-weight solution for inflatable boats used in more demanding environments. Its PVC-coated textile reliably retains air, resists saltwater, and maintains its shape under mechanical load. With improved abrasion performance and reliable UV resistance, it can withstand frequent docking, landings, and repeated handling. Technicians appreciate its consistent welding behavior.

It is an ideal material for sport boats, fishing inflatables, and mid-duty commercial craft.

German Engineered

Status: 03.2026

Better Grip
enhanced surface grip and premium matt appearance

Reliable Strength
enhanced stability through optimized material thickness of 0,7 mm

Weather Resistance
state-of-the-art UV stabilizers ensures a reliable weather resistance

Robust Marine Durability
low abrasion and resistant to saltwater
