AQUA CULTURE 900 PVC | H3602

Reliable PVC solution for lice skirts and harsh marine exposure.
Strong weldability and high surface smoothness for efficient handling.

aqua culture 900 PVC is designed for use with lice skirts and other similar aquaculture structures that are exposed to rough daily conditions. Its PVC coating provides strong adhesion, excellent weldability, and material stability, even with constant movement by waves and current. Its smooth, high-gloss surface reduces fouling and helps and extends cleaning intervals.

With its dependable saltwater resistance and excellent weldability, the material enables quick fabrication and ensures long-term durability in open-water environments.

German Engineered

Status: 03.2026

Durable Saltwater Resistance

providing long-lasting durability and reliable resistance to saltwater exposure

Excellent weldability

ensures strong, secure, and durable seams across all common welding methods

Improved dirt repellence

High-gloss embossing minimizes algae adhesion, ensuring cleaner surfaces and reduced maintenance effort

Long Service LIfe

High coating adhesion ensures long service life through durable and reliable bonding performance

Other colors on request
