AQUA CULTURE 1200 PVC | H3607

High-strength textile for long-lasting lice skirts in harsh marine conditions.

aqua culture 1200 PVC is designed for use in areas where lice skirts are subject to constant movement, rough weather, and long-term exposure to seawater. Its strong polyester base fabric provides high tensile and tear strength for a longer service life, even under toughest conditions. The material maintains excellent weldability, enabling fast and secure fabrication.

With its stable handling and reliable resistance to abrasion and marine conditions, aqua culture 1200 PVC is a dependable solution for operators in need of durable, low-maintenance protection for their aquaculture cages.

German Engineered

Status: 03.2026

Durable Saltwater Resistance

providing long-lasting durability and reliable resistance to saltwater exposure

Excellent Weldability

ensures strong, secure, and durable seams across all common welding methods

Long Service LIfe

High coating adhesion ensures long service life through durable and reliable bonding performance

Reliable Material Performance

high performace base fabric delivers higher strength while maintaining proven and reliable material performance

Other colors on request
