

SERVICE WATER 1100 LQ | H3609

**PVC material with durable lacquer finish for safe service water storage.
Strong weldability and long term environmental resistance.**

service water 1100 LQ is designed for reliable storage of service water where safety, sealing performance, and long-term durability are essential. Its robust PVC formulation withstands environmental influences, and an additional lacquer layer enhances surface protection and extends the service life. The material's consistent mechanical properties facilitate clean processing and reliable containment. With its strong price-to-performance ratio, service water 1100 LQ provides operators with an efficient, economical foundation for lasting security without unnecessary complexity.

Lightweight for Flexibility

a low weight of 1100 g/m² provides maximum flexibility for easy handling and versatile use

Optimized Performance

specialized surface lacquer improves dirt-repellent behavior and enhances weldability for clean handling and reliable seam quality

Reliable PVC Formula

provides strong resistance to environmental influences, ensuring durable and long-lasting performance

Strong Adhesion & Stability

high coating adhesion combined with excellent hydrolysis resistance ensures durable, long-lasting performance

Other colors on request
