BOAT 600 | H5512-8

Lightweight PVC for reliable inflatable boats.
Stable handling, strong bonding, proven in marine use.

boat 600 is designed for inflatable boats that require reliable performance and reduced weight. Its airtight PVC coating provides secure pressure retention, and its UV- and saltwater-resistant properties ensure stability in long-term marine environments. The matt surface resists abrasion and allows for strong welding and bonding processes.

boat 600 delivers robust handling, easy processing, and trustworthy, long-lasting performance on the water for boats used in recreation, rental, or lighter professional applications.

German Engineered

Status: 03.2026

Better Grip

enhanced surface grip and premium matt appearance

Reliable Strength

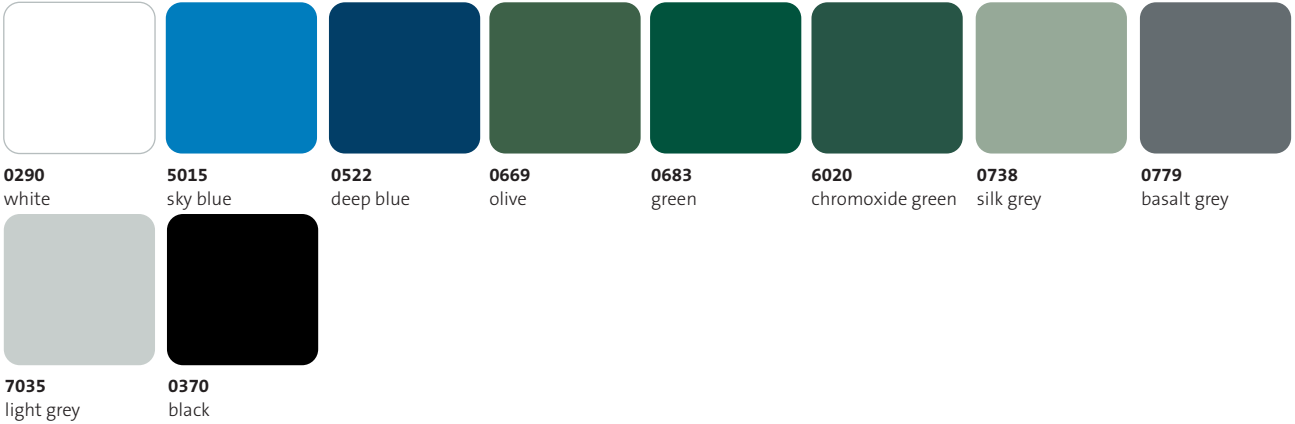

enhanced stability through optimized material thickness of 0,5 mm

Weather Resistance

state-of-the-art UV stabilizers ensures a reliable weather resistance

Robust Marine Durability

low abrasion and resistant to saltwater

0290 white

5015 sky blue

0522 deep blue

0669 olive

0683 green

6020 chromoxide green

0738 silk grey

0779 basalt grey

7035 light grey

0370 black

Other colors on request. Print colors may differ from the original depending on the paper and printing process.
