

HEAVY DUTY 3000 LQ | H5538-1

**One of the strongest PVC coated polyester materials in its class.
Engineered for extreme mechanical loads and long term outdoor use.**

heavy duty 3000-LQ is built for situations where maximum strength is essential. As one of the strongest PVC-coated polyester materials available, it can withstand extreme loads and impacts, as well as long-term exposure to harsh conditions. Its mineral oil-resistant formulation and high UV stability provide durability in aggressive industrial environments. It is ideal for bulk material containment, crane weight covers, and other heavy applications.

It offers reliable, long-lasting protection where structural reserve truly matters.

Exceptional strength

ensure maximum safety under demanding loads

Durable Seam Connections

excellent weldability across all common welding methods ensures secure and durable seam connections

Oil Resistant PVC

oil-resistant PVC coating ensures maximum safety and long-lasting performance in demanding environments

Outstanding UV Resistance

ensures long service life even under prolonged outdoor exposure

Protective Easy-Clean Coating

surface coating reduces dirt adhesion, ensuring easier cleaning and longer-lasting material appearance

Other colors on request

The technical data are approximate values based on average values determined. For manufacturing reasons, deviations of up to -5% are possible. These technical specifications respond to the current state of knowledge and are intended to provide information about our products without legal obligation. These data apply to new goods. Suggested applications do not release the buyer from the obligation to check whether the material is suitable for the intended use.
