

LIFTING BAG 1400 | H5584

**High strength fabric for lifting cushions and rescue applications.
Stable, durable and safe for moving heavy loads.**

lifting bag 1400 is designed for lifting cushions used in demanding rescue and industrial operations. Its material can withstand extreme pressure, repeated deformation, and close-range mechanical stress. It provides reliable load support when large masses need to be shifted. Its structure remains stable under compression, retaining its performance even when conditions become unpredictable.

For aircraft recovery, rescue operations, or industrial load movement, lifting bag 1400 provides a safe, durable, and reliable foundation.

**German
Engineered**

Durable Seam Connections

excellent weldability across all common welding methods ensures secure and durable seam connections

Airtight

airtight PVC coating ensures maximum safety by providing reliable containment and leak prevention

Outstanding UV Resistance

ensures long service life even under prolonged outdoor exposure

Protective Easy-Clean Coating

surface coating reduces dirt adhesion, ensuring easier cleaning and longer-lasting material appearance

Other colors on request
