

FLEXITANK 1100 TPU ET ET | H8555

TPU formulation for storing aqueous substances.

Weather-resistant outer coating for safe long-term containment.

flexitank 1100 TPU ET ET is designed for storing aqueous substances where moisture stability and reliable containment are essential. The TPU coating provides excellent resistance to water-based substances, and the weatherproof design ensures consistent performance in outdoor settings.

The coated exterior surface keeps the material robust during handling and maintains its structural integrity over time. It is a solid choice for safe, long-lasting liquid storage.

Hydrolysis-Resistant TPU

Ether-based TPU with high hydrolysis resistance ensures safe and reliable storage of aqueous media.

Exceptional Strength

ensure maximum safety under demanding loads

Maximum Abrasion Resistance

engineered for extreme wear, ensuring a longer lifetime with minimal abrasion

Strong Seam Adhesion

high-adhesion ensures secure and long-lasting weld seam
