

FLEXITANK 1100 TPU ES ET | H8556

TPU coating for storing oil-containing substances.
Weather-resistant coating on the outside.

flexitank 1100 TPU ES ET is designed for storing oil-containing substances under demanding outdoor conditions. The TPU coating ensures reliable media resistance, while the weather-resistant construction protects the material over long exposure times. Its coating on the outer side adds durability during handling and installation.

For storage systems that must remain stable, leak-tight and manageable in daily operation, this material delivers dependable performance with a long service life.

Dual TPU Coating

Ester-based TPU on the contact side provides high mineral-oil resistance, while ether-based TPU on the outside ensures excellent weather durability

Exceptional Strength

ensure maximum safety under demanding loads

Maximum Abrasion Resistance

engineered for extreme wear, ensuring a longer lifetime with minimal abrasion

Strong Seam Adhesion

high-adhesion ensures secure and long-lasting weld seam
