

SHADE PLUS 700 I FR | H5671-L3

Lightweight Shade. Solid Reliability.
Smart Shading for Modular Structures.

In places where sun dominates the rhythm of the day, shade plus 700 I FR steps in as a quiet but essential companion. Light enough to adapt, strong enough to endure, it forms graceful surfaces that cool, soften, and protect. Its PVDF finish keeps the fabric bright and clean, even in dusty climates, while UV-stability preserves its strength under relentless skies.

Easy to weld, safe by design, and built for lasting calm, it brings comfort where the heat never compromises.

**German
Engineered**

Certified

FR certificates according to different norms (for further details, please see data sheet)

Performance

high-performance PVDF coating ensuring color stability and extended durability

High gloss

smooth and glossy surface for convincing dirt resistance

Weather Resistance

state-of-the-art UV stabilizers ensures a reliable weather resistance

Weldability

excellent weldability and less smoke during welding

9016
traffic white

1115
light ivory

Other colors on request. Print colors may differ from the original depending on the paper and printing process.

The technical data are approximate values based on average values determined. For manufacturing reasons, deviations of up to -5% are possible. These technical specifications respond to the current state of knowledge and are intended to provide information about our products without legal obligation. These data apply to new goods. Suggested applications do not release the buyer from the obligation to check whether the material is suitable for the intended use.
