

TARP 620 LQ | 8250 5241

Laquered quality for smooth processing. Stable seams and clean edges.

tarp 620 LQ is designed for fabricators who prioritize consistency. Its lacquered finish ensures consistent performance: smooth welds, predictable handling and clean tension lines every time.

It is a reliable option for workshops with steady production, where efficiency and consistent quality are important.

Status: 04.08.2026

Enhanced Mechanical Strength
for superior resistance to stress and wear

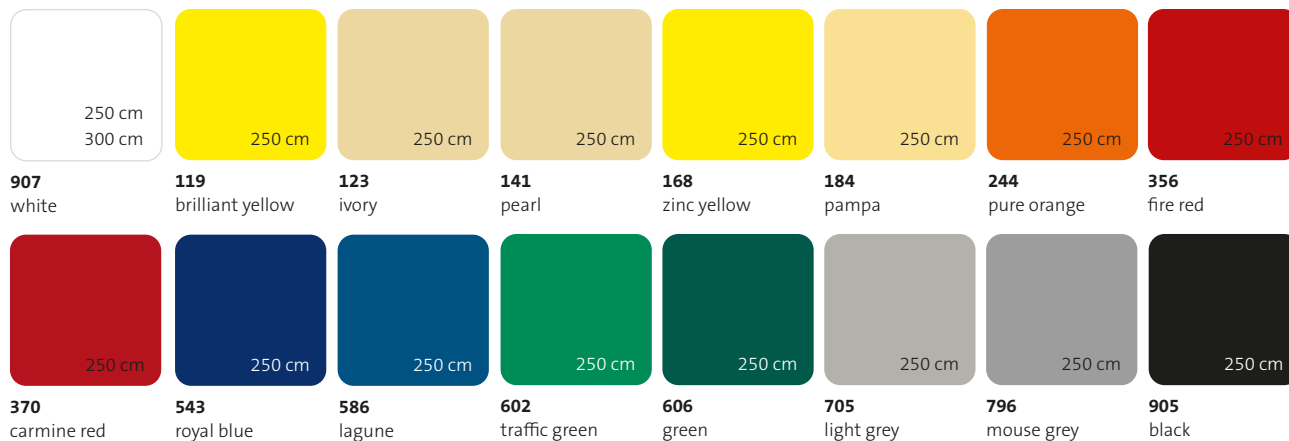

High Flexibility
very pliable material for versatile applications and shapes

High Gloss
smooth and glossy optic with great soiling behaviour

Weldability
excellent weldability and less smoke during welding

Other colors or widths on request. Print colors may differ from the original depending on the paper and printing process.

The technical data are approximate values based on average values determined. For manufacturing reasons, deviations of up to -5% are possible. These technical specifications respond to the current state of knowledge and are intended to provide information about our products without legal obligation. These data apply to new goods. Suggested applications do not release the buyer from the obligation to check whether the material is suitable for the intended use.
