

TARP 700 LQ IR | 8551 0241

**Military grade stability with infrared performance.
Built for long duty cycles and demanding field conditions.**

tarp 700 LQ IR is designed for environments where reliability is essential. The infrared-optimized military execution ensures low visibility in special conditions, while the lacquered body provides long-lasting stability. It processes smoothly in the workshop and withstands stress, weather and long service cycles in the field.

It is the material of choice when the job demands confidence and endurance from day one.

**Made in
Germany**

Performance

acc. military standard
BW-TL 8305-0253

Enhanced Mechanical Strength

for superior resistance to stress and wear

High Flexibility

very pliable material for versatile applications and shapes

Practical

matt embossed finish for a refined, good-looking surface

Weldability

excellent weldability and less smoke during welding

691N

bronze green

Other colors on request. Print colours may differ from the original depending on the paper and printing process.

The technical data are approximate values based on average values determined. For manufacturing reasons, deviations of up to -5% are possible. These technical specifications respond to the current state of knowledge and are intended to provide information about our products without legal obligation. These data apply to new goods. Suggested applications do not release the buyer from the obligation to check whether the material is suitable for the intended use.
