

ROOF TARP 850 ARAMID | H5769

Engineered for extreme conditions: robust, long-lasting, heat-resistant, and spark-proof.

Specially engineered with an aramid base fabric for exceptional strength and durability. The advanced PVC coating provides outstanding UV protection, while the material offers enhanced resistance to sparks and heat.

With a weight of 850 g/m², it is ideally suited for truck roof systems and other demanding industrial applications where long-term performance is essential.

**Made in
Germany**

Aramid Reinforcement

enhancing structural strength for long lasting performance

Durable

combines strength and durability for reliable use in tough environments

Maximum Mechanical Strength

engineered for superior tensile strength to withstand extreme mechanical stress

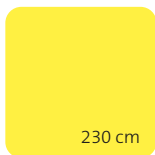

Protection Against Sparks & Heat

provides dependable protection in applications exposed to elevated temperatures and sparks

Weather Resistance

state-of-the-art UV stabilizers ensures a reliable weather resistance
